

Eco-Bump Cylinders

Product Offering - New from June 1st 2020

Gasco is pleased to announce the launch of its new ****Eco-Bump**** cylinder. This small handy lightweight cylinder is available globally from June 2020 and can be filled with reactive Quad mixtures including H2S, CO, CH4, O2 in N2 offering up to a 12 month shelf life.

The cylinder contains enough gas for up to 250 Bumps of 3 seconds each.

Note - The Eco-Bump cylinder is filled to 83 bar and so care must be taken to use appropriately rated regulators.

Characteristic					
	Contents	Pressure	Dimensions	Material	Weight
Eco-Bump	5.8 litres	1200 psi (83 bar)	3.32" x2" (84.3m m x 50.5 mm)	Aluminium	0.55lb (0.25kgs)

Specifications			
	Approvals	Cylinder Valve	Recommended Equipment
Eco-Bump	Global Approval	C10	<i>Eco-Trigger Regulator - Rated up to 90 bar</i>

Eco-Bump Cylinders

Shelf Life

Shelf Life Data			
Molecule	Minimum	Tolerances	Shelf Life
H ₂ S <i>(Hydrogen Sulfide)</i>	40ppm	+/-20%	12 Months
